

Since 1978, Arctic
sea ice has shrunk
by 9% per decade

**Still not convinced
about Global Warming?**

Consider this:

The five hottest years ever
recorded in history were
1997, 1998, 2001, 2002,
and 2003.

And that's just the tip of the iceberg

got oil?TM

Help stop greenhouse gas emissions. Go to GotOil.org
